

“ I hired Mat Richter of Richter Creative to create a new corporate identity and some marketing materials for my custom cabinetry company and I am very pleased with the results. Prior to hiring Richter Creative I had sought the design services of another, larger agency, and was disappointed with their attempts. Mat was able to create the perfect logo to represent my business and did so with ease. From the first sketches that he provided I knew that I had found the right designer to fulfill my business needs. ”
